445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable. My regular phone bill is 26.00, but with all of the fees and taxes, the final bill is 40.00. This is utterly ridiculous.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair! I probably do not make more than 3 long distance calls a year.

I use my wireless phone for safety and so my 83 year old mother can contact me in case of an emergency I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Sandra Herzog 10221 Bassoon Houston, Texas 77025

Sincerely,

Sandra Herzog
